Professional Summary

Passionate Flutter Developer with 2 years' experience in building cross-platform mobile applications. Proficient in Dart, state management techniques (Provider, Bloc, GetX, Riverpod), and integrating RESTful APIs to deliver seamless user experiences. Skilled in performance optimization, responsive design, MVVM and Clean Architecture to ensure robust and scalable applications.

Education

*Bachelor of Arts in Information Technology (IT) Tanta
University, Faculty of Arts
Tanta, Egypt
Oct 2020 – Jun 2024*

Experience

**Mobile Application Developer (Flutter) Business
Cube, Saudi Arabia (remotely) February 2025
– Currently**

- Developed scalable applications leveraging Flutter and Clean Architecture.
- Enhanced data synchronization by integrating RESTful APIs efficiently.
- Conducted rigorous testing and debugging, boosting app reliability by 40%.

**Mobile Application Developer (Flutter) Dream
Soft, Egypt-Tanta
May 2024- February 2025**

- Developed scalable applications leveraging Flutter and Clean Architecture.
- Enhanced data synchronization by integrating RESTful APIs efficiently.
- Conducted rigorous testing and debugging, boosting app reliability by 40%.

**Mobile Application Developer (Flutter) Olspark,
Egypt-Tanta
February 2024 - May 2024**

- Spearheaded user-friendly feature design and implementation for mobile applications.
 - Achieved a 30% reduction in application load times through performance optimizations.
 - Collaborated with cross-functional teams to deliver applications on schedule.
-

Technical Skills

- **Programming Languages:** Dart, Kotlin.
- **Frameworks & Technologies:** Flutter, Firebase, Supabase, RESTful APIs, GraphQL, gRPC.
- **Platform Development:** Android Development, iOS Development, Web Development, Desktop Development.
- **State Management:** Bloc/Cubit, GetX, Provider, Riverpod.
- **Architectural Patterns:** Clean Architecture, MVVM, MVC, Repository Pattern.
- **Database & Storage:** SQLite, Shared Preferences, Hive, Get Storage, Firestore.
- **Testing:** Unit Testing, Widget Testing, Integration Testing, Mock Testing.
- **DevOps & Version Control:** Git, GitHub, GitLab, Jenkins, GitHub Actions, Jira.
- **Development Tools & IDEs:** Android Studio, Xcode.
- **Maps & Location Services:** Google Maps Integration, Geolocation, Location Permissions.

- **Internationalization & Localization:** Flutter Intl, Multi-language Support, ARB Files.
 - **UI/UX Design & Tools:** Figma, Adobe XD, Material Design, Cupertino Design, Responsive UI Design.
 - **Third-Party Integrations:** Push Notifications, Social Media APIs, Payment Gateways, Analytics.
 - **App Store & Deployment:** Google Play Store Publishing, Apple App Store Publishing, App Store Optimization (ASO).
 - **Additional Technical Skills:** JSON Parsing, Custom Widgets, Animation, Camera Integration, Advanced Debugging, API Documentation, Problem Solving, Continuous Learning
-

Projects:

Active Deer:

Active Deer is a sports club's app that allows users to book and track training, manage subscriptions, and renew them seamlessly through Moyasar using bank cards or Apple Pay.

Pos Cube:

POS Cube is a desktop restaurant app on odoo, web and tablet system using Clean Architecture, GetX and GetIt. The app handles order management, API integration for fetching, updating and deleting data, and supports printing invoices for smooth restaurant operations.

Tasweer:

E-commerce application with responsive design, offering seamless booking photographers and models. Employed GetX for state management and GetIt. Increased user retention by 25% through efficient UX updates.

Sellfora:

E-commerce application with responsive design, offering seamless shopping for various products. Employed GetX for state management and GetIt. Increased user retention by 25% through efficient UX updates.

FixIt:

A service-based app connecting users to maintenance technicians. Leveraged Clean Architecture and RESTful APIs to deliver a highly scalable platform. Reduced response time for service requests by 20%.

Dream Gym:

Dream gym app with QR code-based access and admin functionalities. Built using Cubit and Clean Architecture. Improved subscription processing efficiency by 35%.

Courses

- *Introduction to Object-Oriented Programming (Udemy)*
 - *Complete Flutter & Dart Development Course (Udemy)*
 - *Flutter Advanced Course: Bloc and MVVM Pattern (Udemy)*
 - *Deep Dive into Clean Architecture in Flutter (Udemy)*
-

Languages

- Arabic: Native
 - English: Intermediate
-

Personal Skills

- Strong teamwork and collaboration abilities.
 - Excellent problem-solving and analytical thinking.
 - Adaptable and capable of thriving in fast-paced environments.
 - Highly motivated with a passion for continuous learning.
 - Detail-oriented with a focus on delivering high-quality results.
 - Strong organizational and time-management skills.
-

Achievements

- Increased app engagement rates by 30% through innovative feature implementation.
- Improved application performance across multiple projects, consistently reducing load times by 20-30%.
- Successfully delivered over 4 projects within tight deadlines while maintaining high-quality standards.
- Modern gym app with QR code-based access and admin functionalities. Built using Cubit and Clean Architecture. Improved subscription processing efficiency by 35
