PROFESSIONAL SUMMARY

Flutter Developer with 3+ years of international remote experience shipping production-grade, cross-platform mobile applications. Specializes in generative AI/Voice Agent integration, Clean Architecture, and advanced state management. Proven record owning the full development lifecycle — from system design to live App Store releases.

TECHNICAL SKILLS

Category	Stack
Languages & Core	Dart · Kotlin · Swift · OOP · SOLID Principles
Frameworks	Flutter (Mobile, Desktop, Web) · Android SDK · iOS
State Management	BLoC / Cubit · GetX · Provider · Riverpod
Architecture	Clean Architecture · MVVM · MVC · Repository Pattern · GetIt DI
Backend & APIs	REST · GraphQL · gRPC · Firebase · Supabase · Firestore
Databases & Storage	SQLite · Hive · Shared Preferences · GetStorage
DevOps & Testing	Unit / Widget / Integration Tests · Git · GitHub Actions · Jenkins · Jira
UI/UX & Localization	Figma · Material / Cupertino · Flutter Intl (ARB) · Responsive UI
Integrations	Google Maps · Push Notifications · Payment Get way · Apple Pay · QR Code · ASO

PROFESSIONAL EXPERIENCE

Mobile Application Developer (Flutter) — Taaly · Netherlands · Remote *September 2025 – Present*

Live app: [Google Play](#) · [App Store](#)

- Architected and shipped **the generative AI Voice Coach** — enabling real-time, natively rendered speech practice and language feedback via on-device audio pipelines.
- Owned the end-to-end release pipeline, **launching and scaling the app** across both Google Play and the Apple App Store.
- Overhauled rendering and state management pipelines, delivering measurably smoother frame rates, lower battery draw, and faster initial load states.
- Engineered with a scalable localization infrastructure, handling automated translation-asset generation across multiple language tracks.

Mobile Application Developer (Flutter) — Business Cube · Saudi Arabia · Remote *February 2025 – February 2026*

- Architected enterprise-grade cross-platform applications from scratch using **Clean Architecture** with strict separation of concerns across data, domain, and presentation layers.
- Reduced production bugs by **40%** through comprehensive unit and widget test suites alongside robust RESTful API and local caching integration.
- Maintain reliable offline-first data flows across multi-module business applications serving enterprise clients.

Mobile Application Developer (Flutter) — Dream Soft · Tanta, Egypt *May 2024 – February 2025*

- Led end-to-end development of e-commerce and fitness apps, driving a **+25%** uplift in user retention through targeted UX improvements.
- Engineered complex reactive data flows — including live QR scanning and real-time admin updates — using Cubit and GetX state management.

Mobile Application Developer (Flutter) — Olspark · Tanta, EgyptFebruary 2024 – May 2024

- Diagnosed and eliminated UI thread blockages across legacy modules, achieving a **30%** reduction in application load times.
- Delivered pixel-perfect, fully responsive UI components through close collaboration with designers on Figma mockups.

SELECT PROJECTS

Project	Highlights
Taaly <i>Language Learning & AI</i>	Generative AI conversational companion for voice-based language training. Real-time audio capturing, optimized state management, and smooth UI updates for user immersion. Google Play · App Store
POS Cube <i>Desktop & Tablet</i>	Odoo-integrated restaurant POS · Clean Architecture · Offline-first + invoice printer communication. Link
Active Deer <i>Fintech / Sports</i>	Sports club booking platform · Moyasar payment gateway · Apple Pay & credit card support
Tasweer & Sellfora <i>E-Commerce</i>	Dual e-commerce engines · +25% user retention via UX optimization Tasweer: Android · iOS Sellfora: Android · iOS
FixIt <i>Services</i>	Maintenance request app · Clean Architecture + REST · –20% service response time
Dream Gym <i>Fitness</i>	QR-based gym access & admin panel · +35% subscription processing efficiency

EDUCATION

Bachelor of Arts in Information TechnologyOctober 2020 – June 2024

Tanta University · Faculty of Arts
